

Animal Welfare and Scientific Research: 1985 to 2010

October 25, 2010 | Animal Welfare

Marriott Bethesda North Hotel and Convention Center, Bethesda, MD

PROPOSED PROGRAM TOPICS

Welcome Patricia Brown, *Office of Laboratory Animal Welfare, NIH* and
Chester Gipson, *Animal Care, Animal and Plant Health Inspection Service, USDA*

Introduction Nelson Garnett, *Office of Laboratory Animal Welfare, NIH, retired*

Animal Housing Facilities - Taylor Bennett (moderator), *National Association for Biomedical Research*

- **Where We Came From** - Betty Goldentyer, *Animal Care, Animal and Plant Health Inspection Service, USDA* and Christian Newcomer, *Association for Assessment and Accreditation of Laboratory Animal Care International*
- **How We Got There** - Laretta Gerrity, *University of Alabama* and Willie McCullough, *National Center for Research Resources, NIH*
- **Where We Are Today** - Steven Leary, *Washington University*

Institutional Animal Care and Use Committees - James Taylor (moderator), *Office of Animal Care and Use, NIH, retired*

- **Formative Years** - Ralph Dell, *Institute for Laboratory Animal Research, retired*
- **Best Practices** - Kathryn Bayne, *Association for Assessment and Accreditation of Laboratory Animal Care International*
- **Future** - Jerry Collins, *Yale University and Office of Laboratory Animal Welfare, NIH*

Education and Training - Mary Lou James (moderator), *IACUC 101 Series*

- **Conmed: The First Educational Forum** - Steele Mattingly, *University of Kentucky, retired*
- **Role of Education in Self-Evaluation** - Susan Silk, *Office of Laboratory Animal Welfare, NIH*

Veterinary Care - Patricia Brown (moderator), *Office of Laboratory Animal Welfare, NIH*

- **Where We Were** - Gerald Van Hoosier, *University of Washington, retired*
- **Current Standard of Care and Technologies: Non-rodents** - Michael Talcott, *Washington University*
- **Current Standard of Care and Technologies: Rodents** - William White, *Charles River Laboratories*
- **Improving Animal Housing and Welfare** - Brian Hare, *Duke University*

Synergy of Working Together - John Miller, *Office for Protection from Research Risks, NIH, retired* and
Dale Schwindamin, *USDA, retired*

Keynote Address and Dinner

Charles McCarthy, *Office for Protection from Research Risks, NIH, retired*

Animal Welfare and Scientific Research: 1985 to 2010

October 26, 2010 | Scientific Research

Marriott Bethesda North Hotel and Convention Center, Bethesda, MD

PROPOSED PROGRAM TOPICS

Welcome Susan Silk, *Office of Laboratory Animal Welfare, NIH*

Use of Animals in NIH Supported Biomedical Research
Sally Rockey, *Office of Extramural Research, NIH*

Advances in Global Infectious Disease Research
Tanja Popovic, *Centers for Disease Control and Prevention*

Use of Animals in the Development of Medicines and Devices for Humans and Animals
Representative, *Food and Drug Administration*

Animal Models and Basic Science: Bench to Bedside
Richard Nakamura, *National Institute of Mental Health, NIH*

Animal Models in Immunology and Transplant Medicine
Alan Kirk, *Emory University*

Animal Models Facilitate Rapid Responses to Emerging Infectious Diseases
Michael Kurilla, *National Institute of Allergy and Infectious Diseases, NIH*

Challenges of an Aging Brain
Stuart Zola, *Yerkes National Primate Research Center*

Genetic Vulnerabilities Associated with Cancer and Aging
Nancy Hopkins, *Massachusetts Institute of Technology*

Toward a Better Understanding of Depression, Schizophrenia, and Autism
Larry Young, *Yerkes National Primate Research Center*

Insight into Brain Development from Animal Vocalization Studies
Erich Jarvis, *Duke University*

Increasingly Significant Role of Animals in NIH Supported Biomedical Research
Susan Lederer, *University of Wisconsin*

Standing up for Science
Dario Ringach and J. David Jentsch, *University of California, Los Angeles*

Panel Discussion
Jerry Collins, *Yale University and Office of Laboratory Animal Welfare, NIH*
